

## AQUACER 3500

Version 1.1  
SDS\_AU

Revision Date: 17.12.2024

Date of last issue: 02.01.2023  
Print Date 18.12.2024

## SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

Product name : AQUACER 3500  
Product code : 000000000000112665

**Manufacturer or supplier's details**

Company : BYK Netherlands BV  
Address : Danzigweg 23  
7418 EN Deventer  
Telephone : +49 281 670-23532  
Telefax : +49 281 670-23533  
E-mail address : GHS.BYK@altana.com  
Emergency telephone number : 18000 74234 (toll –free number, access from Australia only)  
+61 2 8014 4558

**Importer**

Company : IMCD Australia Pty Ltd  
Level 1, 352 Wellington Road  
Mulgrave  
VIC 3170  
Australia  
Telephone: +61 3 8544 3100

Use of the Sub-  
stance/Mixture : Wax Additive

## SECTION 2. HAZARDS IDENTIFICATION

**GHS Classification**

Not a hazardous substance or mixture.

**GHS label elements**

Not a hazardous substance or mixture.

**Other hazards which do not result in classification**

None known.

## SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture : Mixture  
Chemical nature : Cationic emulsion of modified polypropylene wax

**Components**

| Chemical name                     | CAS-No.    | Concentration (% w/w) |
|-----------------------------------|------------|-----------------------|
| Amines, tallow alkyl, ethoxylated | 61791-26-2 | $\geq 0.5$ -< 1       |

**AQUACER 3500**Version 1.1

**SECTION 4. FIRST AID MEASURES**

|                                                             |                                                                                                                                                                                 |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| General advice                                              | : Do not leave the victim unattended.                                                                                                                                           |
| If inhaled                                                  | : If unconscious, place in recovery position and seek medical advice.<br>If symptoms persist, call a physician.                                                                 |
| In case of eye contact                                      | : Remove contact lenses.<br>Protect unharmed eye.<br>If eye irritation persists, consult a specialist.                                                                          |
| If swallowed                                                | : Keep respiratory tract clear.<br>Do not give milk or alcoholic beverages.<br>Never give anything by mouth to an unconscious person.<br>If symptoms persist, call a physician. |
| Most important symptoms and effects, both acute and delayed | : No information available.                                                                                                                                                     |
| Notes to physician                                          | : No information available.                                                                                                                                                     |

---

**SECTION 5. FIREFIGHTING MEASURES**

|                                               |                                                                                                                                                     |
|-----------------------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                  | : Foam<br>Carbon dioxide (CO <sub>2</sub> )<br>Dry chemical                                                                                         |
| Unsuitable extinguishing media                | : High volume water jet                                                                                                                             |
| Hazardous combustion products                 | : Carbon oxides<br>Nitrogen oxides (NO <sub>x</sub> )                                                                                               |
| Specific extinguishing methods                | : Standard procedure for chemical fires.<br>Use extinguishing measures that are appropriate to local circumstances and the surrounding environment. |
| Special protective equipment for firefighters | : Wear self-contained breathing apparatus for firefighting if necessary.                                                                            |

---

**SECTION 6. ACCIDENTAL RELEASE MEASURES**

|                                                       |                                                                                                              |
|-------------------------------------------------------|--------------------------------------------------------------------------------------------------------------|
| Methods and materials for containment and cleaning up | : Wipe up with absorbent material (e.g. cloth, fleece).<br>Keep in suitable, closed containers for disposal. |
|-------------------------------------------------------|--------------------------------------------------------------------------------------------------------------|

---

**SECTION 7. HANDLING AND STORAGE**

|                                                 |                                                                                                                        |
|-------------------------------------------------|------------------------------------------------------------------------------------------------------------------------|
| Advice on protection against fire and explosion | : Normal measures for preventive fire protection.                                                                      |
| Advice on safe handling                         | : For personal protection see section 8.<br>Smoking, eating and drinking should be prohibited in the application area. |
| Hygiene measures                                | : General industrial hygiene practice.                                                                                 |
| Conditions for safe storage                     | : Electrical installations / working materials must comply with the technological safety standards.                    |
| Further information on storage conditions       | : Keep away from heat.                                                                                                 |

## AQUACER 3500

Version 1.1  
SDS\_AU

Revision Date: 17.12.2024

Date of last issue: 02.01.2023  
Print Date 18.12.2024

Materials to avoid : No materials to be especially mentioned.

Further information on storage stability : No decomposition if stored and applied as directed.

**SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION****Components with workplace control parameters**

Contains no substances with occupational exposure limit values.

**Personal protective equipment**

Respiratory protection : No personal respiratory protective equipment normally required.

Hand protection  
Material : Nitrile rubberRemarks : Wear suitable gloves.  
Eye protection : Safety glasses  
Skin and body protection : Protective suit**SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES**

Appearance : liquid

Colour : light brown

Odour Threshold : No data available

pH : 7.0 (20 °C)  
Concentration: 100 %

Melting point/ range : 2 °C  
(1,013 hPa)

Boiling point/boiling range : 100 °C  
(1,013 hPa)

Flash point : Not applicable

Evaporation rate : No data available

Flammability (liquids) : Will not burn

Upper explosion limit / Upper flammability limit : No data available

Lower explosion limit / Lower flammability limit : No data available

Vapour pressure : No data available

Relative vapour density : No data available
