BYK Regulatory Information

BYK-MAX ASC 4181

Granulated surface additive for the use in polypropylene to increase the scratch resistance.

Technically recommended use level: 0.5 – 1 %

Summary

BYK-MAX ASC 4181 is suitable according to the following compositional provisions for food contact applications, as indicated:

Plastic		
EU	Suitable for use in food contact plastics	Yes
	Regulation (EU) No. 10/2011	Yes
USA	21 CFR 177.1520 'Olefin polymers'	No

This summary only reflects conducted evaluations on existing regulations. It does not exclude compliant use in additional regions or applications. Explanations below show details on considered regulations and evaluations.

Explanation

Plastic

EU **Regulation (EU) No. 10/2011**

The components of this product or the monomers and starting materials used to manufacture the components of the product are listed directly in Annex I – Table I of Regulation (EU) No. 10/2011. Specific migration limits and/or restrictions apply.

Therefore, the product can be recommended for use in food contact plastics in the EU.

USA **21 CFR 177.1520 'Olefin polymers'**

The product does not comply with Title 21 CFR (FDA) Regulations for indirect food additives.

General Remarks

Regulations apply within the context of respective regional framework regulations, e.g. Regulation (EU) No. 1935/2004 and FDA 21 CFR 174.5. Since traces of unknown processing aids cannot be fully excluded, compliance with general requirements is the responsibility of the end user.
