TIXOGEL-DMC

Version 1

Revision Date 05/17/2026

Print Date 06/18/2026

Unsuitable extinguishing media	: Carbon dioxide (CO ₂) Dry chemical
Specific hazards during firefighting	: High volume water jet Flash back possible over considerable distance. Do not use a solid water stream as it may scatter and spread fire. Fire burns more vigorously than would be expected. The pressure in sealed containers can increase under the influence of heat. Cool closed containers exposed to fire with water spray. Vapours may form flammable mixture with air Exposure to decomposition products may be a hazard to health. Will not explode on mechanical impact. Handle as an industrial chemical.
Hazardous combustion products	: Nitrogen oxides (NO _x) Carbon oxides Silicon oxides
Further information	: For safety reasons in case of fire, cans should be stored separately in closed containments. Use a water spray to cool fully closed containers.
Special protective equipment for firefighters	: Wear self-contained breathing apparatus for firefighting if necessary.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures	: Use personal protective equipment. Avoid dust formation. Avoid breathing dust. Remove all sources of ignition.
Environmental precautions	: Prevent product from entering drains. Prevent further leakage or spillage if safe to do so. If the product contaminates rivers and lakes or drains inform respective authorities.
Methods and materials for containment and cleaning up	: Contain spillage, and then collect with an electrically protected vacuum cleaner or by wet-brushing and place in container for disposal according to local regulations (see section 13). Keep in suitable, closed containers for disposal.

SECTION 7. HANDLING AND STORAGE

Advice on safe handling	: Avoid formation of respirable particles. Do not breathe vapours/dust. Avoid contact with skin and eyes. For personal protection see section 8.
