BYK Regulatory Information

SCONA TPPP 9112 FA

Adhesion promoter for TPE-S overmolding compounds, coupling agent for natural fiber compounds, and one-packs in polypropylene.

Summary

SCONA TPPP 9112 FA is suitable according to the following compositional provisions for food contact applications, as indicated:

Plastics		
EU	Suitable for food contact plastics	Yes
	Regulation (EU) No. 10/2011	Yes
China	GB9685-2016, table A.1 'Plastics'	Yes

This summary only reflects conducted evaluations on existing regulations. It does not exclude compliant use in additional regions or applications. Explanations below show details on considered regulations and evaluations.

Explanation

Plastics	
EU	<u>Regulation (EU) No. 10/2011</u> The components of this product or the monomers and starting materials used to manufacture the components of the product are listed directly in Annex I - Table I of Regulation (EU) No 10/2011. Specific Migrations Limits and/or restrictions apply. The product does not contain dual use additives or volatile solvents by purpose. Therefore, the product can be recommended for use in food contact plastics in the EU, as described above.

China GB9685-2016, table A.1 'Plastics'

The product complies with compositional requirements of the National Food Safety Standard of the People's Republic of China, Standard for Uses of Additives in Food Contact Materials and Articles (GB9685-2016), since its components are listed in table A.1 (Additives for plastics).

Therefore, the product can be recommended for use in plastics, according to GB9685-2016.

General Remarks

Regulations apply within the context of respective regional framework regulations, e.g. Regulation (EU) No. 1935/2004 and FDA 21 CFR 174.5. Since traces of unknown processing aids cannot be fully excluded, compliance with general requirements is the responsibility of the end user.
